Fees for most services are \$1500 or less

What we do: Our goal is to provide under-resourced nonprofits in the New York City area with very affordable "starter-services" that can help your organization evaluate, design and expand its base of financial support. Our services cost from \$100 to \$1,500. You can select the consultant you want to work with and you will know in advance what the cost will be and what services the consultant will deliver to you. Our service packages include specific tasks, deliverable products, and specific time frames with set fees.

Who we are: 15 fundraising consultants and grant proposal writers based in the New York Metro Area. Collectively, we have many years of experience across the entire spectrum of fundraising strategies and other forms of institutional capacity building needed to increase your organization's income and fulfill your mission.

The consultant you select and contract with can give you the help you need. This includes services such as: resource and funding source research, corporate and foundation grant proposal writing, government grant writing, evaluation planning, board development, board and staff training, management and development strategies and major gift solicitation. To learn more about the services that are available, [click here](#).

How Does the Fundraising Consultant Network Work?

We have joined together to bring our skills and experience to organizations that need highly skilled and specific help, but who can afford only modest fees. Our members have worked with a wide range of clients: educational organizations, arts organizations, youth programs, senior and disabled advocacy groups, health, HIV-AIDS services, housing, human service providers and a wide range of community based and faith based organizations.

How to access the network: Part of what makes it possible for us to offer our services at these low prices is a commitment to public service. However, another part has to do with this website and the fact that it helps us minimize selling costs. So, to take advantage of this, you need to:

- 1) Go to www.fundraisingconsultants.net if you're not already there ([some](#)

[people print this off the website as a flyer](#)).

- 2) Click on any of the services you see listed, or the entire menu of services.
- 3) When you find a service you want to learn more about, send an email to one or more of the consultants offering that particular service. They will contact you with more information.
- 4) If you want to learn more about the consultants offering a particular service, feel free to look over their biographies, which are also posted on the website.
- 5) After that, all arrangements are between you and the consultant(s) you contact.

That's all there is to it!

If you need to learn more, feel free to [contact](#) any of our member consultants. We look forward to serving you.
